Funds  
Expended  
**\$2.1M**

All thanks to your generosity **8,000** residents in Banyibanyi now have clean, accessible water!

## A Brighter Future

Ramadhan, one of our experienced water agents, recently sent the following email regarding the most recent water system completed in Banyibanyi:

"When I see crowds and crowds of men and women, some on foot while some with their carts driven by donkeys and cows come to get fresh water for drinking from distant villages, it makes me think of you more and more and what love and generosity you have! It is now estimated that nearly 15,000 people get fresh water for drinking from Banyibanyi. Really, you have changed and saved lives of thousands and thousands of our people. Your work at Banyibanyi has waved an eternal goodbye to cholera, bilharzia, ringworm, and trachoma which have disturbed people for years."

*Ramadhan's message is to the entire TLP family of donors. Your contributions have created a new sense of hope in what is possible which will allow future generations to accomplish amazing things!*

## Empowering Women in Partnership with Days for Girls

Over the last four years TLP has partnered with Days for Girls and distributed approximately 1,000 feminine hygiene kits (including educational instruction) to girls and women in villages where we have installed clean water systems. These kits allow girls and women to fully participate in school and work because they are a solution to effectively manage their monthly cycles.

Access to clean water plays a large role in the sustainability of these washable, reusable kits and can prolong the life of a kit up to four years!

A Days for Girls enterprise is now in Dodoma, organized by the Canadian non-profit society, For the Love of Africa! There are several reasons to celebrate:

- Women in Dodoma earn an income by making the kits.
- Kits are now available locally.
- Our local TLP team can distribute kits as needed without waiting for delivery of kits from the USA team once a year.

We are grateful that our new partnership with For the Love of Africa will enhance our Women's Empowerment efforts in the villages we serve!

Congratulations to the graduates of Days for Girls University who completed training at Dodoma Technical Institute (DTI)! They are now registered and doing business as "DTI DfG Enterprise."

**97% of your donations go directly to serve the people in Africa.**

DONATE DIRECTLY ON OUR WEBSITE AT [www.TanzaniaLifeProject.org](http://www.TanzaniaLifeProject.org)

Or mail your tax deductible contribution to:
